PROFILE

Software Engineer in Testing with 1 year of experience working at Softtek QA Team, seeking a Junior position where I can utilize my skills in software development, software testing, as well my knowledge of programming languages to contribute to the success of the team. I am eager to learn and grow in a collaborative environment that fosters innovation and encourages continuous learning. With a strong foundation in programming principles and a passion for software testing and development, I am confident in my ability to take on new challenges and make valuable contributions to the team.

EDUCATION

Bachelor of Computer Science, Facultad de Ciencias, UNAM   2017 - 2021

Relevant coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Systems, Computer Architecture, Operating Systems

SKILLS

Programming languages	Java, Python
Web development	React JS
Software testing	Selenium, Robot, Jira, Q Test

EXPERIENCE

QA Software Tester   Spring 2022 - Present
Softtek   *Mexico City, Mexico*

- Designed and executed test cases and test scripts for web-based applications, including functional, regression, smoke and sanity tests.
- Conducted exploratory testing to identify and report defects and usability issues.
- Worked closely with development team to ensure timely resolution of defects and issues.
- Participated in daily scrum meetings, providing status updates on testing progress and identifying areas of risk or concern.
- Maintained detailed records of testing activities and results using tools such as JIRA
- Conducted manual testing using JavaScript injections to manipulate and verify data on the front-end of web applications.

IT Coordinator   Autumn 2021 - Winter 2021
Luparvil   *Mexico City, Mexico*

- Responsible for leading a team of 8 undergraduate IT engineers through 2 projects, and for project management of SMEs.
- Generated process documentation and administrative reports according to project activities
- During my time at Luparvil, I was able to develop my project management and leadership skills, and gained valuable experience in coordinating and leading a team of engineers to deliver successful projects for our clients.
